This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

MONTHLY NOTICES.

1. Quarter Sessions commence on the Monday of this week.

1. British Museum closes.

1. Clerks to Guardians and Overseers of Parishes not under a Board of Guardians to make out Lists of Lunatic Paupers.

1. Leipzig fair—manufactured goods, &c.*

7. Last day for Medical Officers sending quarterly lists of lunatics prepared by them to Clerks to Guardians

8. British Museum opens, 10 till 4; Reading Room, 9 till 4.

9. Fire Insurance due at Christmas must be paid by this day, or the Policy becomes void.

10. Last day for sending quarterly lists of lunatics, as prepared by Medical Officers, to the Commissioners in Lunacy, and copies of the same to Clerk to the Visitors of the Asylum.

31. Last day for owners of property sending in a statement to Overseers of their claims to vote in Election of Guardians.

31. Last day for the Superintendent-Registrar to transmit Quarterly Returns of Marriage Licences to the Registrar-General.

Registration.—Births.—Persons should cause their children to be registered within forty-two days after birth, by giving personal notice to the registrar of their district, *without any fee whatever.*

Deaths. Intimation should be given of deaths in the same manner as births. This should be done within five days, as the undertaker has to give a certificate to the minister who reads the funeral service; who, if he refuse to bury the body without a certificate, is bound to give notice to the registrar within seven days.

As the *cause* of death is to be entered, sound discretion should be exercised in ascertaining the real nature of the deceased's death, for which important purpose every facility should be given.

* The Monthly List of Fairs is only a selection of the more important ones. When they fall on Sunday, they are usually held the day after. A few of the German Fairs which are of commercial interest are given, each of which continues for three weeks.

MONTHLY NOTICES.

1. Last day for Clerks of Guardians transmitting Lists of Pauper Lunatics.

2. Candlemas-day. Scotch quarter-day.

5. On or before this day, claims of owners and proxies for election of Guardians to be entered on the register.

8. Carnarvon — sheep and cattle.

15. Last day for inspecting claims of owners for election of Guardians.

15. Last day for sending to Superintendent-Registrar copies of the entries of Births, Deaths, and Marriages, for the Quarter ending December 31.

15. Last day for objecting to owners' votes for Election of Guardians.

20. Last day for giving notice of day for hearing objections to owners' votes for election of Guardians.

21. Last day for the Superintendent - Registrar sending copies of entries to the Registrar-General.

Wills.—From Jan. 1838, all wills made in England came under the provisions of the new Wills Act. By it, all property may be disposed of by will; all wills must be in *writing*, and each must be signed at the bottom or end by the testator, or, if he is unable, by some person on his behalf, by his direction, and in his presence; and two, or more, attesting witnesses (who must be present at the same time) must also sign the will. If the testator wishes to acknowledge or reward the attesting witnesses, he must do it in some other way than by bequeathing them anything: for legacies to attesting witnesses, or to the wife or husband of an attesting witness, are void. No person under twenty-one can make a valid will. Wills are revoked by subsequent marriage; otherwise a will can only be revoked by destruction or by the making of a new one; and alterations in wills must be made in the same manner as a will is made.

19. Bedford—cattle.
21. Election of Common Councilmen
31. *Last day of the Year.* Those who have not been accustomed to keep an account of personal or household expenses should begin from this day. Those in trade who have not been accustomed to take an annual account of stock should begin from this day. Without cash-books and without stock books, trade is little better than a game of chance.

* For List of Inspectors, see p. 17. † For List of District Auditors, see p. 158.

f In all cases in which the letter f. is added to the letter denoting the day of the Guardians' meeting, those meetings take place fortnightly. The letters f. s show that they meet fortnightly in the Summer months only. Where these letters are absent, the Guardians meet weekly.

‖ The Clerks to the Guardians are also Clerks to the Assessment Committees in all the Unions, unless stated to the contrary.

POOR LAW LEGISLATION.

SESSION, 1867.

(30 AND 31 VICTORIA.)

BY W. CUNNINGHAM GLEN, ESQ.,

BARRISTER-AT-LAW.

The principal Poor Law Legislation of the year 1867 consisted of the following enactments :—

30 Vict., c. 6—The Metropolitan Poor Act, 1867.
30 Vict., c. 12—The Criminal Lunatics Act, 1867.
30 and 31 Vict., c. 84—The Vaccination Act of 1867.
30 and 31 Vict., c. 102—The Representation of the People Act, 1867.
30 and 31 Vict., c. 106—The Poor Law Amendment Act, 1867.
30 and 31 Vict., c. 113—The Sewage Utilization Act, 1867.
30 and 31 Vict., c. 125—The Contagious Diseases (Animals) Act, 1867.
30 and 31 Vict., c. 143—The Expiring Laws Continuance Act, 1867.

The enactments enumerated, and some few others hereinafter mentioned, more or less affect the poor rate, or the officers engaged in Poor Law administration, and are therefore referred to as being included in the term Poor Law Legislation.

METROPOLITAN POOR.

The most important of these acts is the Metropolitan Poor Act, 1867 (30 Vict., c. 6), which I have already made the subject of a separate publication. It makes very important changes in the system of poor relief administration, so far as the metropolis is concerned ; but, as I have stated in the preface to my edition of the act, I purposely abstained from entering into any disquisition or history of the events (perhaps sensational) which have led to the almost entire subversion of the system of poor relief which, since the Poor Law Amendment Act of 1834, has been in operation in the metropolis. It suffices that I should here state what are the principal provisions of the act, and the changes which it effects in the machinery of Poor Law administration within the area of the metropolis—that is, in those unions, and parishes not in union, which are wholly, or for the greater part thereof, included in the metropolis, as defined by the Metropolis Management Act, 1855.

DISTRICT ASYLUMS.

Asylums, to be supported and managed according to the provisions of the act, may be provided for the reception and relief of the sick, insane, or infirm, or other class or classes of the poor chargeable in unions and parishes in the metropolis. In order to the provision of such asylums, the Poor Law Board may from time to time by order combine into districts, unions or parishes, or unions and parishes, in the metropolis, as they think fit, and may from time to time alter any such district by addition, sub-division, separation of part, or other-

Digitized by Google

wise; and for each district there shall be an asylum or asylums, as the Poor Law Board by order shall direct.

For the asylum or asylums of each district there shall be a body of managers constituted, as will be presently mentioned, who and their successors are incorporated, and by the name given to them by the act shall be one body corporate, with perpetual succession and a common seal, and with power, subject and according to the orders of the Poor Law Board, to take, hold, and dispose of lands and other property for purposes of the asylum district. The managers are, subject to the provisions of the act, to be partly elective and partly nominated.

Elective managers are to be elected by the guardians of each of the several unions and parishes forming the district from among themselves, or from among ratepayers qualified to be guardians therein, or partly from one and partly from the other.

Nominated managers are to be nominated by the Poor Law Board from among justices of the peace for any county or place resident in the district, or from among ratepayers resident in the district and assessed to the poor rate therein on an annual rateable value of not less than forty pounds, or partly from one and partly from the other.

The Poor Law Board are by order to prescribe the total number of the managers, and the proportion of the elective and nominated managers (but so that the prescribed number of the nominated managers do not ever exceed one-third of the prescribed number of the elective managers), the number of elective managers to be elected for each union or parish in the district, the qualifications of the managers, their tenure of office, the mode and times of election, and the quorum for their meetings. A clause in the act provides that the acts of the managers shall not be invalid by reason of any vacancy, failure, defect, irregularity, want of qualification, or disqualification, and the provisions of the Poor Law Acts imposing penalties on guardians and their officers if concerned for their own profit in providing, or in any contract for the supplying of, anything for the use of workhouses or otherwise for the support or maintenance of the poor, and all remedies for recovery of such penalties extend and apply to the managers and their officers.

The Poor Law Board may from time to time by order direct the managers to purchase, hire, or build, and (in either case) to fit, up a building or buildings for the asylum, of such nature and size and according to such plan, and in such manner, as the Board think fit. The managers have, for the purposes of the asylum, the like powers as are for the time being vested in guardians of unions or parishes in the metropolis, relative to the purchase or hiring of lands or buildings; but the consent of any ratepayers or owners of property in a union or parish shall not be necessary with respect to any sale, lease, or other disposition of any workhouse, building, or land, by guardians or overseers to the managers.

The managers may borrow money for purchasing lands or buildings, and for building, fitting up, and furnishing buildings erected or hired for the asylum, according to the provisions of the Poor Law Acts, under which guardians are for the time being empowered to borrow money, and may charge the poor rates of the unions and parishes forming the district with the money so borrowed, and inte-

Digitized by Google

rest, subject and according to the following provisions :—(1.) The amount borrowed shall not exceed one-third of the aggregate annual expenditure on the relief of the poor within the whole district (exclusive of reimbursements) for the period of three years ending on the 25th of March next preceding the borrowing of the money. (2.) The amount borrowed shall be charged on the poor rates of the several unions and parishes forming the district in the proportions in which they contribute to the maintenance of the asylum. (3.) The amount borrowed shall be paid off, with interest, by equal annual instalments not exceeding twenty. The Poor Law Board may by order direct that any building for the time being in use as a workhouse be, with such alterations as they think fit, used for the asylum, and thenceforth that building shall be for the common use of the district; and an annual sum in the nature of rent or other compensation, of such amount as the Board from time to time direct, shall be paid to the guardians of the union or parish to which the building belongs, as long as the same continues to be so used. If in any such case the managers expend any money in the improvement or enlargement of the building, or the providing of substantial fittings therein, and afterwards relinquish the use thereof, the Board may make an adjustment in respect of that expenditure between the owners of the building and the managers, and direct such amount as they think equitable to be reimbursed to the managers by the owners, to be paid at once or by instalments as the Board direct.

The managers are from time to time to provide for the asylum necessary fixtures, furniture, and conveniences, and such as the Poor Law Board from time to time by order direct.

The mode of admission of persons into the asylum shall be such as the Poor Law Board from time to time by order direct. The managers shall have the like powers as guardians for the relief, maintenance, and management of the inmates of the asylum, and shall from time to time provide such medicines, appliances, and requisites for the medical and surgical care and treatment of the inmates, and cause the same to be furnished and used according to such rules as the Poor Law Board from time to time by order direct.

The provisions of so much of section 43 as relate to rules of the Poor Law Board for government of the asylum or its inmates, and to religious assistance and instruction, and sections 50, 54, 57, and 59 of the Poor Law Amendment Act of 1844, extend to the asylum as if it were an asylum under that act, or a workhouse, and as if the managers were a district board under that act.

With reference to chargeability, burial, and other incidents, the asylum, in relation to each inmate thereof, is deemed to be in the union or parish from which such inmate is sent ; but births and deaths in the asylum are to be registered by the registrar in whose district the asylum is situate.

The managers have the like powers as guardians for the appointment, control, and payment of paid officers of the asylum, and the grant of superannuation allowances to them ; and the duties, number, and salaries of the paid officers, and the securities to be given by them, are to be such as the Poor Law Board may from time to time approve or by order direct ; and legal and reasonable orders of the

Digitized by Google

managers must be obeyed, and obedience thereto shall be enforced, in like manner and by and under like remedies and penalties as legal and reasonable orders of guardians.

The managers may from time to time, subject and according to such regulations as the Poor Law Board from time to time by order prescribe, appoint committees of members of their body, and delegate to them any of the powers of the managers; but the managers shall, in the exercise and discharge of all their powers and duties, be subject to orders of the Poor Law Board in like manner as guardians are under the Poor Law Acts.

Where the asylum is provided for reception and relief of the sick or insane, it may be used for purposes of medical instruction, and for the training of nurses, in such cases and manner, and subject to such regulations, as the Poor Law Board from time to time by order direct; and where the asylum is provided for reception and relief of the insane the Commissioners in Lunacy may, if they think fit, depute one of their body, or appoint from time to time a special commismissioner, and the person so deputed or appointed shall be entitled to attend meetings of the managers and to take part in their proceedings, but not to vote; and every such asylum shall be considered as a workhouse within the meaning of the Lunacy Acts, as defined by the 25 and 26 Vict., c. 111.

Expenses incurred by the managers in or about the purchasing, hiring, building, repairing, and fitting up of buildings for the asylum, and any sum in the nature of rent or other compensation, payable by the managers to guardians, in respect of the use for the asylum of a building previously used as a workhouse, and expenses incurred by the managers in or about the providing of fixtures, furniture, conveniences, medicines, medical and surgical appliances, and other necessaries required for keeping the asylum in proper order for daily use, and the salaries and maintenance of the officers thereof, are to be defrayed by contributions from the unions and parishes forming the district; but expenses incurred by the managers in or about the food, clothing, maintenance, care, treatment, and relief, or for the burials, of inmates of the asylums, are to be separately charged to the respective unions or parishes from which the inmates of the asylum are sent.

The Poor Law Board are to appoint some person to be the auditor of the district, who shall audit the accounts of the managers and of their officers; and those accounts shall accordingly be prepared for and submitted to the auditor at such times and in such manner as the accounts of guardians of unions are by the Poor Law Acts required to be prepared and submitted. The auditor is to have the like powers of allowing and disallowing accounts, and of making surcharges therein, as auditors appointed under the Poor Law Acts, and sums disallowed, reduced, or surcharged in the accounts submitted to the auditors shall be recoverable in like manner as under the Poor Law Acts; and there shall be the like appeal to the Court of Queen's Bench or to the Poor Law Board against an allowance, disallowance, or surcharge made by the auditor, as in case of the audit of union or parish accounts. Within one month after each audit the managers are to deliver, by post or otherwise, to each board of guardians in the

Digitized by Google

district a printed abstract (in a form to be prescribed by the Poor Law Board) of the accounts as audited. The remuneration of the auditor to be fixed by the Board by order, and, with his expenses, shall be paid as the salaries and expenses of auditors appointed under the Poor Law Acts are payable. The Board may remove an auditor as they think fit, and on a vacancy shall appoint a qualified person to fill the vacancy; and the powers of providing temporarily for a vacancy, and of appointing a substitute or a deputy, given by the Poor Law Acts in relation to auditors, shall apply in relation to an auditor under the Metropolitan Poor Act.

MEDICAL OUT-DOOR RELIEF.

The Poor Law Board may from time to time by order direct the guardians of a union or parish in the metropolis to provide a dispensary or dispensaries for such union or parish, and to purchase, hire, or build, and (in either case) to fit up and furnish a building or buildings for that purpose, of such nature and size, and according to such plan, and in such manner as the Board think fit, or to set apart, adapt, fit up and furnish for that purpose such part of the workhouse of the union or parish, according to such plans, and in such manner, as the Board think fit. Where the Board by order so direct, the guardians may borrow the amount requisite in that behalf, in like manner, and subject to the like conditions, as in the case of the building of a workhouse.

There shall be a committee of management for the dispensary or dispensaries in each union or parish, to be called the dispensary committee for the union or parish. The dispensary committee shall be elected by the guardians of the union or parish from among themselves, or from among ratepayers of the union or parish assessed to the poor rate on an annual rateable value of not less than forty pounds, or partly from one and partly from the other. The Poor Law Board shall prescribe, with respect to each committee, the number and tenure of office of the members, the mode and times of election, and the quorum for their meetings.

The guardians of each union or parish providing a dispensary shall also provide, according to the directions of the Board, proper places where the medical officers of the union or parish may see such of the sick poor as attend there for advice, and where meetings of the dispensary committee may be held; and the dispensary committee shall from time to time appoint, and shall at all times keep appointed, proper persons to be dispensers of medicine at the dispensaries for the union or parish, and may from time to time appoint such other officers and such servants for the purposes of those dispensaries as they think fit. The duties, qualifications, number, and salaries of the dispensers, officers, and servants shall be such as the Poor Law Board may from time to time approve or by order direct. The guardians, on the requisition of the dispensary committee, shall provide proper medicines and appliances and requisites for the care and surgical treatment of the sick poor of the union or parish relieved out of the workhouse, and the same shall be dispensed and furnished to such of the poor entitled to relief as require the same, on the prescription or written direction

Digitized by Google

of the district medical officer, subject to such regulations as the Poor Law Board from time to time by order direct.

The district medical officers for a union or parish shall be appointed by the dispensary committee, subject to the rules and orders of the Poor Law Board respecting appointment and removal of officers under the Poor Law Acts; but the district medical officers in office at the time of the dispensary committee entering on their duties shall continue in office as if the act had not been passed, subject, nevertheless, to such modifications of arrangements respecting their duties and remuneration, made with them before the passing of the act, as the Poor Law Board think fit; and, for giving effect to the provisions of the act relating to medical relief out of the workhouse, the Board may from time to time vary as they think fit medical districts, salaries, and contracts with district medical officers, existing at the passing of the act, or at any time thereafter.

DISTRICT AND SEPARATE SCHOOLS.

So much of s. 47 of 13 and 14 Vict., c. 11, as provides for payment by unions as therein mentioned of expenses incurred by any district board in the purchase or hire of any land or buildings for a school, or in erecting, repairing, adding to, or fitting up any building, and the salaries of the officers and servants of the establishment, and other common charges of the school, as far as those provisions relate to a district in the metropolis, are repealed; and expenses incurred by a district board, constituted under the Poor Law Amendment Act of 1844, for the maintenance of a district school for a district in the metropolis, in the purchase or hire of land or buildings for the school, and the salaries of officers, and all other common charges of such school, shall be defrayed by contributions from the unions and parishes forming the district, as will be mentioned hereafter.

The Poor Law Board may from time to time nominate to be members of such a district board such persons as they think fit from among justices of the peace for any county or place resident in the district of the school, or from among ratepayers resident in that district, and assessed to the poor rate therein on an annual rateable value of not less than forty pounds, or partly from one and partly from the other; but so that the number of members so nominated do not ever exceed one-third of the full number of the elected members of the board.

WORKHOUSES FOR CLASSES OF POOR.

Where, in the opinion of the Poor Law Board, the workhouse of a union or parish in the metropolis is adapted only for the reception of poor persons of a particular class or particular classes, but is capable of accommodating poor persons of that class or those classes from any other union or parish within the metropolis, the Board may by order direct the guardians of the union or parish to which the workhouse belongs to receive, lodge, and maintain therein poor persons of that class or those classes, or any of them, and the guardians shall receive, lodge, and maintain such poor persons accordingly, on terms to be agreed on, with the approval of the Board, by the respective boards of guardians of the unions or parishes concerned, or, in default of such

Digitized by Google

agreement, to be prescribed by the Board by order. In every such case the following provisions shall have effect:—(1.) Every poor person so received into the workhouse shall, while therein, be treated in all respects in like manner, and be subject to the same or the like regulations and liabilities, as the other poor persons therein, and shall be chargeable in the first instance to the union or to the parish in the workhouse whereof he is received. (2.) The abiding of any such poor person in such workhouse shall, in all other respects, be attended with the same legal consequences as if the workhouse were situate within the union or parish from which he is sent. (3.) Every guardian of the union or parish from which such poor person is sent may at all reasonable times enter the workhouse and inspect any part thereof.

LANDS.

The provisions of the 5 and 6 W. 4, c. 69, relative to the acquisition of sites or buildings for workhouses, and of all acts extending or amending the same, shall apply to lands and buildings required to be purchased, hired, or otherwise acquired for any of the purposes of the act, and shall have effect as if managers under the act were guardians, and as if an asylum or dispensary were a workhouse.

The Lands Clauses Consolidation Acts are incorporated with the act; but so much of those acts as relates to the purchase of lands otherwise than by agreement shall not be put in force, except for the purchase of lands for the purpose of enlarging a workhouse, hospital, or school existing at the passing of the act, and then not without a previous order of the Poor Law Board directing such purchase. Before the Board make any such order, the managers or guardians applying to them for the same shall publish once, at least, in each of four consecutive weeks, in a daily morning newspaper published in the metropolis, an advertisement stating the object for which the lands are proposed to be taken, and the quantity of lands required, and the place where a plan of the lands is open for inspection at reasonable hours; and shall, four weeks before the application to the Poor Law Board, serve notices on the owners or reputed owners, lessees or reputed lessees, and occupiers of the lands, stating the particulars thereof, and that the managers or guardians are willing to treat for purchase thereof.

CONTRIBUTIONS OF UNIONS AND PARISHES.

Sums to be contributed under the act by unions and parishes shall be assessed on and contributed by them respectively, in proportion to the annual rateable value of the property therein, to be determined according to the valuation lists, or, where there are none, according to the latest poor rate for the time being for the union or parish, or on such other basis as the Poor Law Board from time to time direct. The managers of an asylum under the act, and the district board constituted under the Poor Law Amendment Act of 1844, for the maintenance of a district school, shall from time to time call on the guardians of the unions and parishes forming the district for such contributions as the managers or district board consider requisite for the purposes of the asylum or school; but notice in writing of

Digitized by Google

the amount of every such contribution, purporting to be signed by the clerk or other officer of the managers or district board (in a form to be prescribed by the Poor Law Board), shall, fourteen days at least before such contribution becomes due, be delivered to the clerk or acting clerk of the guardians of each union and parish liable to the contribution, either by post, in a letter addressed to him at the office of the union or parish, or otherwise. If the contribution is not duly paid, the managers or district board shall (in addition to any other remedy which any person has for the time being against guardians) have the like remedy for recovery of the contribution, or of so much thereof as is not paid, from the overseers or other officers authorised to levy poor rates in the several parishes (whether comprised in a union or not) in the district, as guardians have for the time being for recovery from overseers of contributions of parishes. If the overseers of any parish in a union pay any money to the managers or district board on account of such contribution, they shall be entitled to credit for such payment in the accounts of the union with their parish.

MEDICAL IN-DOOR RELIEF.

In order to facilitate provision for the appointment, where requisite, of resident workhouse medical officers, and for better classification and management of the sick poor in a separate hospital or building, or in an infirmary kept distinct from the rest of the workhouse, the Poor Law Board may by order determine, or from time to time vary as they think fit, any contract with any medical or other workhouse officer existing at the passing of this act, and direct the guardians to pay to a medical or other officer affected thereby such compensation by way of increased salary, or of an annuity, or of a gross sum, or otherwise, as the Board think fit.

HOUSELESS POOR.

Sections 1 and 2 of the Metropolitan Houseless Poor Act, 1864, are repealed, except with respect to any claims under that act then outstanding, which shall be provided for as if that act continued wholly in force.

METROPOLITAN COMMON POOR FUND.

There shall be a fund, called the Metropolitan Common Poor Fund, raised by contributions from the several unions, parishes, and places in the metropolis; and there shall be a receiver of the Common Poor Fund, who shall be from time to time appointed by, and shall be removeable by, the Poor Baw Board, and shall receive such salary and give such security (if any) as the Poor Law Board direct. The receiver shall open an account with the Governor and Company of the Bank of England, intituled "The Account of the Receiver of the Metropolitan Common Poor Fund" for the time being.

The Poor Law Board shall from time to time assess on the several unions and parishes in the metropolis the amounts of their respective contributions to the Common Poor Fund, in proportion to the annual rateable value of the property therein comprised, to be determined according to the valuation lists, or, where there are none, according to the latest poor rate for the time being for the union or parish, or

Digitized by Google

on such other basis as the Board from time to time direct. The Poor Law Board from time to time are to issue to the guardians of each union or parish a precept under the seal of the Board requiring them to pay the amount of their contribution, in the manner and within the time therein prescribed; and the guardians shall accordingly raise the amount of their contribution out of the poor rates of the union or parish, and shall pay the same into the Bank of England to the credit of the Account of the Receiver. No such precept shall be liable to be removed into any court of law by certiorari or otherwise; nor shall any order of the guardians, or any rate made after the passing of the act, be liable to question in any such court on the ground of its having been made wholly or partly in furtherance of any such precept. The guardians shall be entitled to have credit in part payment of their contribution for the amount which may be repayable to them out of the Common Poor Fund, under the precept of the Board, as after mentioned, in respect of expenditure during the preceding half-year.

In order to obtain payment of the amount of the contribution to the Common Poor Fund payable in respect of any place where there is no poor rate, the Poor Law Board shall from time to time issue to the masters of the bench, treasurer, governors, or other body, or persons having the chief control or authority there, a precept requiring them or him to pay the amount of contribution therein specified, in the manner and within the time therein prescribed, and they or he shall pay the same accordingly. In every such place the masters of the bench, treasurer, governors, or other body or persons, may levy on the several persons occupying rateable property therein the amount of contribution so paid by them or him by means of a rate in the nature of a poor rate, and for that purpose may employ and remunerate collectors; and shall have the like powers as are for the time being vested in overseers for the purposes of the making, assessing, levying, and collecting of poor rate.

If any contribution to the Common Poor Fund required by the Poor Law Board to be paid by any guardians, masters of the bench, treasurer, governors, or other body or persons, is not duly paid, the receiver shall (in addition to any other remedy which any person has for the time being against guardians) have the like remedy for recovery from them or him, in the receiver's own name, of the contribution, or of so much thereof as is not paid, as guardians have for the time being for recovery from overseers of contributions of parishes; and for that purpose the precept of the Board requiring the contribution shall be conclusive evidence of the amount thereof, and of the liability thereto of the party sued.

Expenses incurred for the following purposes after the 29th Sept., 1867, shall be repaid out of the Common Poor Fund, that is to say:—(1.) For the maintenance of lunatics in asylums, registered hospitals, and licensed houses, and of insane poor in asylums under this act, except such expenses as are chargeable on the county rate. (2.) For the maintenance of patients in any asylum specially provided under this act for patients suffering from fever or small pox. (3.) For all medicine and medical and surgical appliances supplied to the poor in receipt of relief by guardians under this act or any of the Poor Law Acts. (4.) For the salaries of all officers employed by the guardians

Digitized by Google

in and about the relief of the poor by the managers of district schools under "The Poor Law Amendment Act, 1844," and by the managers of asylums under this act, and also the salaries of the dispensers and other persons employed in dispensaries under this act, provided the appointments of the officers have been sanctioned by the Poor Law Board. (5.) For compensation to any medical officer of a workhouse affected by the determination or variation by the Poor Law Board of a contract respecting medical relief in the workhouse, or for compensation to any officer of a union or parish who may be deprived of his office by reason of the operation or this act. (6.) For fees for registration of births and deaths. (7.) For fees for and other expenses of vaccination. (8.) For maintenance of pauper children in district, separate, certificated, and licensed schools. (9.) For relief of destitute persons certified by the auditor, and provision of temporary wards or other places of reception approved by the Poor Law Board, under the Metropolitan Houseless Poor Acts of 1864 and 1865.

After each half-yearly audit the auditors shall, within such time and in such manner as the Poor Law Board from time to time direct, certify to the Board the amount actually expended by each union or parish in respect of expenses which are to be repaid out of the Common Poor Fund; and the Board shall, by precept under their seal, direct the receiver to repay out of that fund to the guardians of the unions and parishes the several sums so expended, and the amount repaid shall be applied by them in aid of the fund chargeable with the relief of the poor.

The salaries of the receiver and his assistants, and all expenses incurred by him in the execution of the act, shall be paid out of the Common Poor Fund; and the account of the receiver at the Bank of England shall be drawn on in such manner, and according to such regulations, as the Poor Law Board from time to time by order direct.

POOR RELIEF UNDER LOCAL ACTS.

The relief of the poor of every union or parish in the metropolis governed by a local act shall, from and after a day to be stated in an order of the Poor Law Board in relation to each union or parish, be, notwithstanding anything in such local act, administered by a board of guardians elected according to the Poor Law Acts, and in conformity with an order of the Poor Law Board; and the guardians so constituted under this act, notwithstanding anything in any local act, shall have the same powers and authorities, and shall be subject to the same orders, regulations, and restrictions, as guardians elected under the Poor Law Acts.

The workhouses, goods, effects, and real and personal property belonging to a union or parish governed by a local act, and held or used for purposes of the relief of the poor, or of the business of guardians, shall be transferred to and vested in, and belong to, the guardians of the union or parish when constituted under the act, and shall be held and used for purposes of such relief and business, and upon such other trusts and for such other purposes as would have been applicable to the same if the act had not passed; and those guardians shall pay and discharge the debts and liabilities lawfully incurred in and about such relief, or otherwise due from the previous guardians of the union

Digitized by Google

or parish, as the same ought to have been paid and discharged by the previous guardians if the act had not been passed; provided that the Poor Law Board may, if they think fit, by order extend the time of payment of any such debt for a period not exceeding six months from the date of the order.

Officers and persons appointed or acting under any such local act for any purpose of the relief of the poor, or otherwise in the service of the guardians, and superintendent registrars of births, deaths, and marriages, and registrars of births and deaths, and registrars of marriages, shall be entitled to continue in office after the constitution of the new board of guardians under the act, to the same extent as if the act had not been passed; and their service before the constitution of that board shall be reckoned in the computation of any superannuation allowance to which they may be become entitled. In case any officer of a union or parish shall be deprived of his office by reason of the operation of the act, the Poor Law Board may award to him such compensation for the loss of his office and its emoluments, either by way of gross sum or by way of annuity, as to them shall seem reasonable.

Nothing in the act shall deprive any body constituted under a local act of any power thereby vested in them of making and levying poor rates; and, in relation to guardians constituted under the act, every such body shall be deemed overseers within the Poor Law Acts, as far as regards liability to payment of contributions required by guardians for purposes of the relief of the poor in the union or parish.

So much of section 64 of the Poor Law Amendment Act of 1844 as prevents the union of parishes governed by local acts without consent of the guardians, and section 65 of that act, with respect to including such parishes in a district for audit, are repealed as far as they relate to the metropolis.

BOARDS OF GUARDIANS.

The Poor Law Board may from time to time nominate to be members of a board of guardians of a union or parish in the metropolis (whether elected under the Poor Law Acts or constituted under this act) such persons as they think fit, from among justices of the peace for any county or place resident in the union or parish, or from among ratepayers resident therein and assessed to the poor rate therein on an annual rateable value of not less than forty pounds, or partly from one and partly from the other; but so that the number of guardians so nominated do not, together with the *ex-officio* guardians, ever exceed one-third of the full number of the elected guardians.

OFFICERS.

In case at any time any managers of an asylum or dispensary committee under this act, or any board of guardians of a union or parish in the metropolis, fail, for fourteen days after receipt of a requisition of the Poor Law Board in that behalf, to appoint (either originally or on a vacancy) any officer whom they are by law required or authorised to appoint, then, at any time after the expiration of that period of fourteen days, the Poor Law Board may, if they think fit, by order appoint a fit person to be such officer; and the person so appointed

Digitized by Google

shall have and perform all the same powers, rights, privileges, and duties as if the appointment had been duly made by the managers, committee, or guardians, as the case may be.

BORROWING.

Where the guardians of a union or parish in the metropolis require to borrow money for the purposes and under the authority of the Poor Law Acts, the principal sum borrowed may be any sum not exceeding one-half of the aggregate amount of the rates raised for the relief of the poor in that union or parish within three years ending on the twenty-fifth day of March next preceding the borrowing of the money, anything in the said acts to the contrary notwithstanding.

ORDERS OF REMOVAL, &c.

Lastly,—Nothing in the act contained shall prevent any board of guardians, or churchwardens and overseers, from obtaining any order of removal or any order of maintenance in respect of any pauper, by reason of the costs and expenses of such pauper being repaid out of the Common Fund.

It will now be convenient to state the steps which have been taken by the Poor Law Board to give effect to the provisions of the Metropolitan Poor Act, 1867.

The Board first proceeded to act under the 6th section, and almost the last act of Mr. Gathorne Hardy, before he resigned the presidency of the Board for the office of Secretary of State for the Home Department, was, by an order dated the 15th May, 1867, to combine the whole of the unions and parishes which were wholly, or for the greater part thereof, respectively included within the area of the Metropolis Management Act, 1855, into a district to be termed "The Metropolitan Asylum District," for the reception and relief of the classes of poor persons chargeable to some union or parish in the district, who may be infected with or suffering from fever, or the disease of small pox, or may be insane.

The order constituted a board of management for the district, to consist of 45 elected members, and of 15 members to be nominated by the Poor Law Board, pursuant to the 11th section of the act.

The board of management was accordingly elected by the boards of guardians of the several unions and parishes comprised in the district.

The next proceeding of the Poor Law Board was to issue orders, dated respectively the 18th June and 17th July, 1867, prescribing rules and regulations to be observed by the board of management of the district in the conduct of their business, and for the appointment and duties of their officers.

The managers, thereupon, appointed Mr. W. F. Jebb as their clerk, and the Governors and Company of the Bank of England as their treasurer; and the Poor Law Board subsequently appointed Mr. Lambert, Poor Law Inspector, as the receiver of the Common Poor Fund, under the powers given to them by the 62nd section of the act.

It is understood that the board of managers are at present actively engaged in making arrangements for carrying the provisions of the act into execution.

Digitized by Google

The Board then dealt with certain of the parishes in the metropolis in which local acts were in force, under the powers given to them by the 73rd section of the act.

The first dealt with was the parish of St. Pancras, in which abuses of poor law administration were alleged to have prevailed. On the 7th May, 1867, the Board issued an order directing that the administration of the laws for the relief of the poor in the parish, should, from and after the 10th June, 1867, be governed and administered by a board of guardians, to consist of 18 elected guardians On the 8th June the Board issued their consolidated order to the parish, and on the 29th August their order for accounts.

After St. Pancras the parish of St. Mary, Islington, was placed under a board of guardians, consisting of 18 elected guardians, by an order dated 4th June, 1867. To this parish the Board issued their consolidated order on the 4th July, 1867.

In like manner, the parish of St. Marylebone was placed under a board of guardians, to consist of 18 elected guardians, by an order dated 28th July, 1867; and on the 31st July, 1867, the consolidated order was issued to the parish.

Then followed the parish of St. George, Hanover-square, which was placed under a board of elected guardians, by an order dated the 11th July, 1867; and the consolidated order was issued on the 7th August, 1867.

To the parish of St. Mary, Newington, a board of guardians, consisting of 18 elected members, was assigned by an order dated the 12th April, 1867; and with them were conjoined five guardians nominated by the Poor Law Board, under the powers given to them in that behalf by the 79th section of the act. The consolidated order issued to this parish is dated the 4th Sept., 1867.

The last of the local act places placed under a board of guardians was the united parishes of St. Margaret and St. John, Westminster. The order is dated the 26th August, 1867, and assigns a board of guardians consisting of 16 elected members. The consolidated order was issued on the 23rd Sept., 1867.

The following parishes, which are under local acts, have not yet been dealt with under the Metropolitan Poor Act, namely—Clerkenwell, St. Giles in-the-Fields and St. George, Bloomsbury, St. James, Westminster, and the parish of St. Luke, Middlesex.

THE POOR LAW BOARD.

In the paper upon the Poor Law Legislation of the Session 1865, I observed upon the anomalous tenure of office of the Poor Law Board, which had become a department of State, with its president in the Cabinet Now, after a probation of 33 years, the Poor Law Board has, by the act of the 30 and 31 Vict., c. 106, s. 1, been made permanent, by repealing the 28th section of the Poor Law Board Act, 1847, which limited their duration of office to five years, and the operation of which was extended by various acts until the 23rd July, 1867, and the end of the next session of Parliament.

LOCAL ACTS RELATING TO THE POOR IN PLACES OUT OF THE METROPOLIS.

The Metropolitan Poor Act, 1867, it will be seen, has, and not too

Digitized by Google

soon, swept away the local authorities by whom relief to the poor was administered in metropolitan parishes under local acts. Beyond the metropolis such places are not so summarily dealt with; but the 30 and 31 Vict., c. 106, s. 2, provides a machinery similar to that in the Local Government Acts, and the Harbours and Piers Act, for the repeal or alteration of local acts by means of provisional orders, to be afterwards confirmed by Parliament. It enacts that where in any union or parish, not being within the metropolis, the relief of the poor, or the making and levying of the poor rate, is subject to the control or regulation of any local act, it shall be competent for the guardians of such union or parish, having powers to exercise, or duties to discharge under such act, to apply to the Poor Law Board to issue an order to repeal the whole or any part of such local act, or to alter the same, such application having been agreed to by the majority at two successive meetings of the guardians, and being forwarded in writing under the hand of the presiding chairman of the second of such meetings to the Board; the Board may then, if after due inquiry they shall deem it expedient, make and issue a provisional order for such repeal or alteration, and shall take all necessary steps for the confirmation of such order by act of Parliament, but previously to such confirmation the order shall not be of any validity whatever; and every act of Parliament confirming the order shall be deemed a public general act. The act, however, does not provide, as in the case of local goverment, provisional orders for the confirming bills, if petitioned against, being referred to a select committee, and for the petitioner being allowed to appear and oppose it, as in the case of private bills.

ADJUSTMENT AND DIVISION OF PARISHES.

A somewhat similar provision to the foregoing is contained in the third section of the act, enabling the Poor Law Board, where several parts of any parish are separated from one another or intermixed with an adjoining parish, or where a parish is of great extent in area, on an application in writing by one-tenth part in value of owners of property and of ratepayers, in the parish or parishes respectively interested in the subject, if satisfied by public inquiry on the spot, after 14 days public notice of the time, place, and object of such intended inquiry, that the relief to the poor can be better administered in the parish or parishes by means of such re-adjustment or division, make a provisional order under seal (to be afterwards confirmed by Parliament) for re-adjusting or dividing the parishes according to the terms of the application, and for the purposes and objects set forth therein, or with such modifications as they shall deem expedient.

By s. 15, when any parish comprised in any union shall have been so sub-divided, or when any parish shall have been added to any union after all the valuation lists have been finally approved, the contributions of the several parishes to the Common Fund thereof shall continue to be made according to the provisions of the Union Assessment Committee Act, 1862; and the Poor Law Board shall determine by their order the proportions according to which the several parts of the parish divided or the parish added shall contribute to the Common Fund until valuation lists for such parts or such parish re-

Digitized by Google

spectively shall have been finally approved of by the assessment committee of the union, and shall also, in respect of such divided parish, determine the proportions of its liabilities to the Common Fund at the time of the division, to be charged upon the several parts according to the annual rateable value of the property comprised therein.

ELECTION OF GUARDIANS.

By the Poor Law Act of 1834 (s. 38), the "annual rental" gave the qualification for the office of guardian; but this often gave rise to disputes and much uncertainty. It is now enacted by s. 4 of the act now under consideration, that the qualification of a guardian shall be determined with reference to the annual rateable value of the property in respect of which his qualification is claimed.

Much abuse prevailed with regard to proxy votes, which will now, to a very considerable extent, be obviated by the 5th section of the act, which enacts that no owner shall vote by proxy at the election of a guardian for any parish or ward therein, if at the time of the election he shall be residing within the parish.

The 6th section repeals the 21st section of the 7 and 8 Vict., c. 101, and, as regards voting in wards for the future, enacts that no person entitled to vote shall give in the whole of the wards into which a parish may be divided a greater number of votes than he would have been entitled to have given if the parish had not been divided into wards, nor in any one ward a greater number of votes than he is entitled to in respect of property in that ward. Any such ratepayer or owner may, however, by notice in writing, signed by him, and delivered to the overseers of the parish before the day appointed for the annual nomination of candidates, elect in what ward or wards he will vote for the ensuing year, and determine what proportion of votes, having regard to the property situated therein, he will give in any one or more such wards. If he do not give such notice his vote shall only be taken for the ward in which he resides, or, if he do not reside within the parish, for that ward in which the greater part of such property, according to its annual rateable value, shall be situated. No person shall, however, be qualified to nominate a guardian for any ward in which he is not qualified to vote.

As regards registers of owners entitled to vote, the 7th section enacts that the overseers may object to the names of any persons entered on the register whom they shall believe to be dead, or be disqualified from voting as such owners, and shall give public notice, by affixing the same on or near the doors of all churches and chapels within the parish, and at all the usual places of affixing notices of parochial business, of the names to which they have made objections, on some day between the 5th and 15th February, and shall send a copy of such notice to the clerk of the guardians, who shall hear and decide such objections at the time of his revision of the register, in like manner as in the case of other objections. By s. 8 the overseers may from time to time make a fresh register of owners who have claimed to vote for guardians, and of proxies, as they shall find necessary, causing the names to be copied from the former register, and the two to be carefully collated and verified; and by s. 9 the returning officer at the election of guardians shall, in all parishes in which a revision can

Digitized by Google

take place, be concluded by the entries in the register, whether it has or has not been revised.

Under the Poor Law Act of 1834, a corporation aggregate, joint stock or other company, commissioners, or public trustees, could not vote as ratepayers; now, by s. 10 of this act, where they shall be rated, any officer of the corporation, &c., from time to time appointed by the governing body, whose name shall be sent in writing to the overseers before the 1st March in any year, to be entered in the rate book under the name of such corporation, &c., shall be entitled to vote in respect of the property assessed as if he were assessed in his own name for the same, and in the case of a parish divided into wards shall vote in that ward where the principal office of the corporation, &c., shall be situated, if any, or otherwise in that ward where the greatest part of the property assessed shall be situated.

In many parishes great irregularities take place in making poor rates, so that it has often happened that the persons nominating as well as the persons nominated were disqualified. To remedy this, it is now enacted by s. 11 that, where money has been collected in any parish by an assessment under the name and as and for a poor rate, the same shall be deemed to be a rate made for the relief of the poor within the meaning of the 4 and 5 W. 4, c. 76, s. 40, and 7 and 8 Vict., c. 101, s. 16, notwithstanding any defect in the form of such assessment.

By s. 12, when any question as to the election of a guardian is decided by the Poor Law Board, and according to their decision the election in the parish for which he shall have been returned is declared to have been null, the guardian elected at any election in the previous year shall not be entitled to serve as such guardian for the remainder of the current year, but the Poor Law Board shall issue an order for a fresh election.

It has not unfrequently happened that the right of all the guardians returned as duly elected for a parish has been called in question under the 5 and 6 Vict., c. 57, s. 8, and that the Poor Law Board have sustained the objection, and declared the election null and void. In such case, when guardians were elected for the parish in the previous year, they were entitled to continue to act, under the 5 and 6 Vict., c. 57, s. 10.; and thus it has happened that the guardians petitioned against have continued to sit by virtue of their previous election, and notwithstanding their having been unseated upon petition. This will not again happen.

HIRE OF WORKHOUSES OR BUILDINGS.

The 13th section enables guardians, with the approval of the Poor Law Board, to hire or take on lease, temporarily or for a term of years, not exceeding five, any land or buildings for the purpose of the relief or employment of the poor and the use of the guardians or their officers, without any order of the said Board under seal; and, by s. 14, the amount limited by the 4 and 5 W. 4, c. 76, s. 24, with reference to the sums to be raised for the purpose of building workhouses, is increased to a sum not exceeding two thirds of the aggregate amount of poor rates raised during three years, and where the site shall be

Digitized by Google

within any municipal borough, or within five miles from the outward boundary thereof, the cost of it may be added.

SUPERANNUATION OF POOR LAW OFFICERS.

By s. 18, a relieving officer may now hold the office of registrar of marriages simultaneously with that of relieving officer, without forfeiting his right to a superannuation allowance when he retires ; and by s. 19, where an officer shall at the time of vacating his office be employed solely in the service of the guardians, he shall not be prevented from receiving a superannuation allowance by reason of his having been also employed under another public authority, provided that such last-mentioned employment shall have ceased not less than three years prior to his application for such allowance. By s. 20, service in a dissolved union may be reckoned in the grant of allowance in a new union.

BLIND AND DEAF AND DUMB PAUPERS.

Though guardians could, under the 25 and 26 Vict., c. 43, send pauper children to certain certified schools for their education and maintenance, adult paupers could not be so provided for. Now, by s. 21, the guardians may provide for the reception, maintenance, and instruction of any adult pauper, being blind or deaf and dumb, in any hospital or institution established for the reception of persons suffering under such infirmities, and may pay the charges incurred in the conveyance of such pauper to and from the same, as well as those incurred in his maintenance, support, and instruction therein.

DETENTION OF PAUPERS IN WORKHOUSES.

Hitherto guardians had no clear right to detain compulsorily in a workhouse lunatics and other persons unfit to go at large. Great scandal and danger to public health has thus not unfrequently been occasioned ; bnt now, when there shall be in any workhouse a poor person suffering from mental disease, or from bodily disease of an infectious or contagious character, and the medical officer of such workhouse shall upon examination report in writing that such person is not in a proper state to leave the workhouse without danger to himself or others, the guardians, under s. 22, may direct the master to detain such person therein, or, if the guardians be not sitting, the master may, until the next meeting of the guardians, detain him therein; and such person shall not be discharged until the medical officer shall in writing certify that such discharge may take place. This provision applies to every district school and district asylum, and to the managers, board of management, medical officer, superintendent, or master thereof respectively. But it shall not prevent the removal of a lunatic to a lunatic asylum, &c., when such removal is otherwise required by law, nor the removal of any poor person after the parent or next of kin of such person shall have given to the guardians such an undertaking as they shall deem satisfactory, to provide for the removal, charge, and maintenance of such person with due care and attention while the malady continues.

Digitized by Google

BOROUGH PAUPER LUNATICS.

Much difficulty has been felt as to charging the cost of the borough lunatics maintained in county asylums, in consequence of their being charged for at a higher rate than those sent from parishes beyond the borough, such latter parishes having contributed to the erection of the asylum. It is now, therefore, enacted by s. 23, that when any pauper lunatic shall be sent to any asylum from any part of a borough wholly or partly comprised within a union, which borough shall not have contributed to the erection or maintenance of that asylum, the visitors of the asylum shall, where the the union and the borough are not conterminous, make out two accounts in respect of such lunatic in the asylum, one of which shall be limited to the charge which would be made in the case of a pauper lunatic sent from the county, and shall be transmitted to the guardians of the union for payment, and the other, which shall contain the extra sum by law chargeable in respect of a pauper lunatic received into the same asylum from any other county, shall be transmitted to the town council of the borough, and shall be paid by them as other charges to which the borough fund may be liable.

The above provision, it will be noticed, does not apply to the charge of pauper lunatics sent to private lunatic asylums, and it is open to some question whether or not it is retrospective in its operation.

POOR REMOVAL.

The Union Chargeability Act, 1865, is, by ss. 24, 25, and 26, amended in the following respects :—When an order of removal is obtained by the guardians of any union not formed under the 4 and 5 W. 4, c. 76, or by the guardians or overseers of any parish not included in any union so formed, such order shall be addressed to the guardians of such union, and shall be dealt with in all respects as provided by the Union Chargeability Act, 1865.

As regards suspended orders of removal, when any order of removal, made before the passing of the Union Chargeability Act, shall have been suspended, and the suspension shall hereafter be taken off, the order of expenses to be made thereon shall, in the case of a parish comprised in a union, be made in favour of the guardians of the union comprising the parish entitled to be reimbursed, and against the guardians of the union containing the parish to which the order of removal was addressed. The several boards of guardians in such case shall apply so much of the expenses as were incurred before the 25th March, 1866, to the account of the respective parishes, and the residue to the account of the common funds of the unions.

When an order of removal is made upon the guardians, its execution may be suspended. The guardians in whose favour the order is made may send an account to the guardians upon whom it is made, at the end of every quarter, of the cost incurred in the maintenance of the pauper and of his family; and the last-mentioned guardians may pay the same, and if they neglect to do so the amount reasonably expended may be recovered in the county court.

By s. 27, where a union extends into several distinct jurisdictions, every matter, &c., by which the guardians are affected, or in which

Digitized by Google

they have any interest, shall for the purpose of jurisdiction be deemed to arise or exist equally throughout the union.

PARISH FIRE ENGINES.

Notwithstanding that many rural parishes possessed fire engines, there was no general provision for payment of the necessary expenses out of any public fund. It is now enacted (s. 29), that if the vestry of any parish, where there is no town council, local board, or other authority competent to provide the same, shall resolve that the overseers shall provide any fire engine, &c., the overseers shall provide the same, and pay out of the poor rate the necessary expenses.

VACCINATION.

The next act of the session which affects boards of guardians is the act to consolidate and amend the laws relating to Vaccination, 30 and 31 Vict., c. 84.

In contains, in the whole, 37 clauses, besides schedules; but it would be impracticable, in the space at my disposal in this work, to give an intelligible summary of its provisions. This, however, is, perhaps, not to be regretted, as very useful manuals on the subject of the act have been published. The one by Mr. Danby P. Fry, of the Poor Law Board, is published by Messrs. Knight and Co., and may very usefully be consulted. It suffices to say here, that the act repeals, from and after the 1st July, 1868, all the previous acts on the subject of public vaccination, and consolidates, with amendments, their provisions in one act.

CRIMINAL LUNATICS.

The Criminal Lunatics Act, 1867 (30 Vict., c. 12), s. 6, repeals the eighth section of the 23 and 24 Vict., c. 75, and in place thereof makes further provision for criminal lunatics, which, however, the limits of this paper prevent me from entering into.

REPRESENTATION OF THE PEOPLE.

I do not propose in this place to do more than to refer to the provisions of this act (30 and 31 Vict., c. 102), which directly affect Poor Law authorities. In conjunction with Mr. C. W. Lovesy, of the Middle Temple, barrister-at-law, I have edited an edition of the Representation of the People Act, 1867, to which I must refer those who wish to be more fully informed on the subject of "the leap in the dark."

CESSATION OF RATING SMALL TENEMENTS IN BOROUGHS.

As affecting the Poor Laws, the most important clause of the act is the 7th, which abolishes the compounding for poor rates in parishes within parliamentary boroughs. It enacts that, where the owner is rated at the time of the passing of the act to the poor rate in respect of a dwelling house or other tenement situate in a parish wholly or partly in a borough, instead of the occupier, his liability to be rated in any future poor rate shall cease, and the following enactments shall take effect with respect to rating in all boroughs :—

Digitized by Google

1. No owner of any dwelling house or other tenement situate in a parish either wholly or partly within a borough shall be rated to the poor rate instead of the occupier, except as herein-after mentioned :—

2. The full rateable value of every dwelling house or other separate tenement, and the full rate in the pound payable by the occupier, and the name of the occupier, shall be entered in the rate book :

Where the dwelling house or tenement shall be wholly let out in apartments or lodgings not separately rated, the owner of such dwelling house or tenement shall be rated in respect thereof to the poor rate.

INCIDENTS OF FRANCHISE.

By s. 28, where any poor rate due on the 5th of January, in any year, from an occupier, in respect of premises capable of conferring the franchise for a borough, remains unpaid on the 1st of June following, the overseers whose duty it may be to collect such rate shall, on or before the 20th of the same month of June, unless such rate has previously been paid, or has been duly demanded by a demand note, to be served in like manner as the notice in the section referred to, give or cause to be given a notice in the form set forth in schedule (E.) to the act to every such occupier. The notice shall be deemed to be duly given if delivered to the occupier, or left at his last or usual place of abode, or with some person on the premises in respect of which the rate is payable. Any overseer who shall wilfully withhold such notice, with intent to keep the occupier off the list or register of voters for the borough, shall be deemed guilty of a breach of duty in the execution of the registration acts.

By s. 29, the overseers of every parish wholly or partly within a borough shall, on or before the 22nd of July in every year, make out a list containing the name and place of abode of every person who shall not have paid, on or before the 20th of the same month, all poor rates which shall have become payable from him in respect of any premises within the parish, before the 5th of January then last past, and the overseers shall keep the list, to be perused by any person, without payment of any fee, at any time between the hours of ten of the clock in the forenoon and four of the clock in the afternoon, of any day except Sunday, during the first 14 days after the 22nd of July ; any overseer wilfully neglecting or refusing to make out such list, or to allow the same to be so perused, shall be deemed guilty of a breach of duty in the execution of the registration acts.

The act contains further provisions affecting the overseers, which will be best understood by consulting the publication to which I have referred.

SEWAGE UTILIZATION.

As affecting overseers, the 30 and 31 Vict., c. 113, is next to be noticed. It remedies a defect in the 28 and 29 Vict., c. 75, with regard to the payment of expenses of sewer authorities out of the poor rates.

It provides by s. 17, that where the sewer authority of a district is a vestry, select vestry, or other body of persons acting by virtue of any act of parliament, prescription, custom, or otherwise, as or

Digitized by Google

instead of a vestry or select vestry, such authority shall, for the purpose of defraying any expenses incurred in carrying into effect the Sewage Utilization Act, 1865, or the Act of 1867, issue their precept to the overseers of the parish of which they are the authority, requiring them to pay over the amount specified in the precept to the sewer authority, or to their officer named in the precept, or into some bank mentioned in the precept. The overseers are to comply with the precept by levying a separate rate, in the same manner as if it were a poor rate, with the exception specified in the act, to which reference must be made.

By s. 18, in case the amount ordered by the precept be not paid in manner directed by the precept, and within the time specified for that purpose, it may be recovered by distress and sale.

CONTAGIOUS DISEASES (ANIMALS) RATE IN AID.

By s. 38 of the 30 and 31 Vict., c. 125, each local authority acting under it shall cause an account of their expenditure in compensation for animals slaughtered to be made up to Michaelmas and Lady Day in each year, or to such other half-yearly days as the Poor Law Board from time to time direct; and (s. 39) where from such half-yearly account it appears that the expenditure in compensation in any half year exceeds the rate of ninepence in the pound per annum on the annual rateable value of the property in the district, the local authority may apply to the Poor Law Board for an audit of their accounts for that half year, who shall direct an audit accordingly.

The act contains other provisions with reference to the audit and other matters, which, however, cannot further be referred to in this place.

DISQUALIFICATIONS OF JUSTICES OF THE PEACE.

By the Justices of the Peace Act, 1867 (30 and 31 Vict., c. 115), s. 2, a justice of the peace shall not be incapable of acting as a justice at any petty or special or general or quarter sessions, on the trial of an offence arising under an act to be put in execution by a municipal corporation, or a local board of health, or improvement commissioners, or trustees, or any other local authority, by reason only of his being as one of several ratepayers, or as one of any other class of persons liable in common with the others to contribute to or to be benefited by any fund, to the account of which the penalty payable in respect of such offence is directed to be carried, or of which it will form part, or to contribute to any rate or expenses in diminution of which such penalty will go.

STOCK IN TRADE.

The exemption of stock in trade from rateability to the relief of the poor is continued by the Expiring Laws Continuance Act, 1867 (30 and 31 Vict., c. 143), until the 1st Oct., 1868, and end of the then next session.

MISCELLANEOUS PROVISIONS.

The 16th section of the 30 and 31 Vict., c. 106, repeals the proviso to s. 40 of 7 and 8 Vict., c. 101, and so much of s. 43 of that act, as requires the consent in writing of a majority of the district board

Digitized by Google

therein described to the alteration of the district; and s. 17 extends the power conferred by the 3rd section of 5 and 6 W. 4, c. 69 upon the persons who were the guardians of any dissolved union at the time of its dissolution, to the persons who constituted the board of guardians of a parish when such board shall be dissolved (as to whom see the provisions of the Metropolis Poor Act, ante).

The 28th section, but somewhat ineffectually, provides for the audit of the rates made by the overseers under the provisions of the 15th section of the Public Works (Manufacturing Districts) Act, 1863.

For the purposes of the Harbours and Passing Tolls Act, 1861, Cattle Diseases Prevention Act, 1866, the Labouring Classes Dwelling Houses Act, 1866, and the Public Works (Manufacturing Districts) Act, 1863, 1864, the Lords Commissioners of her Majesty's Treasury are empowered, by 30 Vict., c. 32, s. 1, to charge £300,000 per annum upon the Consolidated Fund, by issues not exceeding £75,000 per quarter, during the three years next ensuing the 30th June, 1867.

The Mutiny Act, 30 Vict. c. 13, contains the usual clause (s. 92) as to the mode of recording a soldier's settlement; and the Marine Mutiny Act, 30 Vict., c. 14, also contains (s. 94), a similar provision; and, in consequence of the attention of the military authorities having been called to the subject, the unnecessary provision in former Mutiny Acts, "That no officer of her Majesty's Royal Marine Forces, residing in barracks or elsewhere, under military law, shall be deemed liable to have any parish poor child bound apprentice to him," has been dropped.

By the 30 and 31 Vict, c. 40, s. 4, the Commissioners of Public Buildings are to make good to the parishes of St. Margaret and St. John the Evangelist, deficiencies in rates caused by the taking of certain prescribed lands for the Houses of Parliament and the Thames Embankment.

STATUTE LAW REVISION.

The only remaining legislation upon Poor Laws during the session which remains to be noticed is of a sort of negative kind, inasmuch as it only repeals unnecessary enactments on the subject remaining on the statute book. I allude to the Statute Law Revision Act, 1867, 30 and 31 Vict., c. 59. It repeals the following enactments, which are contained in the first volume of "Glen's Poor Law Statutes":—

3 W. and M., c. 11, sections 1 to 4; section 5, from "shall for," to "year or;" and sections 6 and 12.

6 and 7 W. 3, c. 4, section 2, from "provided always," to end of that section; and the last section.

8 and 9 W. 3, c. 30, sections 1, 4, and 7.

9 W. 3, c. 11.

12 Anne, c. 18.

16 Geo. 2, c. 18, section 2.

25 Geo. 2, c. 36, sections 1, 9, 11, 12, and 15.

9 Geo. 3, c. 37, all except the last section.

(The sections repealed are as given in the act, but they refer to the sections as they are given in Ruffhead's Edition of the Statutes).

GOVERNMENT EXPENDITURE ON POOR LAW ADMINISTRATION.

The following sums are to be paid out of the Consolidated Fund, under 30 and 31 Vict., c. 120, in respect of the following :—

For contributions in aid of local assessments for the relief of the poor in respect of certain descriptions of government property		£27,000
For expenses connected with the administration of the laws relating to the poor		312,798

This latter sum is appropriated as follows :—

England.—Poor Law Board	£45,859	
Medical Officers' salaries....	104,500	
Workhouse Teachers' salaries.....	34,500	
Salaries of Auditors.....	17,900	
		202,759
Ireland. — Poor Law Commission.....	25,800	
Medical Officers' Salaries.....	59,300	
Workhouse Teachers' salaries	5,700	
Salaries of Auditors	2,400	
		93,200
Scotland.—Board of Supervision	6,839	
Medical Officers' salaries	10,000	
		16,839
Total.....		£312,798

GENERAL ORDERS.

The following general orders have been issued by the Poor Law Board during the year 1867 :—

14th Jan., 1867—General Election Amendment order (Unions).

1st Feb., 1867—Ditto (Parishes).

14th Jan., 1867—General order for accounts.

19th Aug., 1867—General order relating to appointment of certain classes of workhouse officers, and to appointment of officers generally.

15th Nov., 1867—General order relating to payment of poor rate collectors.

All these orders, including the general orders issued by the Poor Law Board in the years 1865 and 1866, will be included in the next (the sixth) edition of "Glen's Poor Law Board Orders," which is in the press and will shortly be published.

W. CUNNINGHAM GLEN.

Whitehall, 1st Dec., 1867.

SANITARY LEGISLATION AND PROGRESS DURING 1867.

During the year 1867, six confirming bills received legislative sanction, giving force and effect to an unusually large number of provisional orders, prepared under the provisions of the Local Government Act, 1858, and the acts therewith incorporated. The confirming acts were these :—

No. 1. An act to confirm certain provisional orders under "The Local Government Act, 1858," relating to the districts of Gainsborough, Farsley, Bideford, Canterbury, Chepping Wycombe, Worthing, and Wednesfield; and for other purposes relative to certain districts under that act. (30 and 31 Vict., c. 21.) Royal assent given 1st May, 1867.

No. 2. An act to confirm certain provisional orders under "The Local Government Act, 1858," relating to the districts of Sheffield, Derby, Sherborne, Royton, Bedford (Lancashire), Slough, Sandown, Burton-upon-Trent, West Cowes, and Accrington. (30 and 31 Vict., c. 65.) Royal assent given 25th July, 1867.

No. 3. An act to confirm a certain provisional order under "The Local Government Act, 1858," relating to the district of Halifax; and for other purposes relative to the said district under that act. (30 and 31 Vict., c. 49.) Royal assent given 15th July, 1867.

No. 4. An act to confirm certain provisional orders under "The Local Government Act, 1858," relating to the districts of Oswaldtwistle, Devizes, Layton-with-Warbrick (Blackpool), and Harrogate,

Digitized by Google

and for other purposes relative to certain districts under the said act. (30 and 31 Vict., c. 67.) Royal assent given 25th July, 1867.

No. 5. An act to confirm certain provisional orders under "The Local Government Act, 1858," relating to the districts of Ramsgate, Tunbridge Wells, Bognor, Newport, Chesterfield, Malvern, Great Harwood, and Harrow; and for other purposes relating to certain districts under that act. (30 and 31 Vict., c. 83.) Royal assent given 12th August, 1867.

No. 6. An act to confirm certain provisional orders under "The Local Government Act, 1858," relating to the districts of Exeter, Devonport, Reading, Warley, and Midgley; and for other purposes relative to certain districts under the said act. (30 and 31 Vict., c. 123.) Royal assent given 20th August, 1867.

The private acts passed in the last session of Parliament, relating to towns' improvement, drainage, water supply, roads, markets, companies, &c., numbered altogether 222. This was a great falling off from the result of private bill legislation during each of the six preceding sessions. The lowest number in any of them was 237 (1862), while in 1865 it was 392; and in 1866, 378. In a sanitary point of view, however, it is gratifying to notice that the reduction was not in the class relating to improvements in towns, &c. The acts relating thereto were, indeed, more numerous than during any session since 1857, with the single exception of 1866. They then amounted to 91, and in 1867 reached the respectable number of 85; while in 1859, they were only 25. Many of these acts of last session are calculated to effect great improvements in the sanitary condition of some of our largest cities and towns.

During the past year, the Local Government Act, 1853, has been adopted by a large number of towns and populous districts, including—Weston-super-Mare (Somersetshire), Chorley (Lancashire), Little Woolton, Drighlington (Yorkshire), Chesterfield, Alford (Lincolnshire), Fartown (Yorkshire), Teddington (Middlesex), Mountain Ash (Glamorganshire), Sale (Cheshire), Bognor (Sussex), Malvern (partial adoption), Whitwood (Yorkshire), Prescot and Middleton in Stranton (Lancashire and Durham), Woolborough (Devon), city and borough, &c., of Exeter, Pensarn (Denbighshire), Swinton (Lancashire), Quarry Bank (Staffordshire), Keighley (Yorkshire), Stourbridge, Brierley Hill, Bromley (Kent), Newport (Isle of Wight), Portland Island (Dorsetshire), Burslem, Stoke-upon-Trent (partial adoption), Northam (Devon), Warminster, Upper Sedgley and Lower Sedgley (Staffordshire), Ripley (Derbyshire), Childwall (Lancashire), Hindley, Neston and Parkgate (Cheshire), Sowerby (Yorkshire), Hornsey (part of parish), Hucknall Torkard, Bampton and Barrow-in-Furness, Hopwood (Lancashire), Aberystwith (partial adoption), Gainsborough, Bowness (Westmorland), Hinckley (Leicester and Warwick), and Ashbourne (Derbyshire). Under the provisions, also, of the Sanitary Acts, various special drainage districts have been formed in different parts of the country, including—Whippingham (Isle of Wight), Westbury-upon-Trym (Bristol), Seaford, &c.; and under the powers of those statutes, as well as under those of the Local Government Act, 1858 (to a much larger extent), sanctions have been given, by the Secretary of State for the Home Department, to the sewer

Digitized by Google

authorities or the local boards, respectively, raising, upon security of the rates of their various districts, sums of money to enable them to carry out works of water supply, drainage, and other schemes of local improvement.

The parliamentary notices of private bills for the session of 1867–8, which have been published in the London, Edinburgh, and Dublin *Gazettes*, during the months of October and November, 1867, as required by statute, and by the Standing Orders of both Houses, amount to 320. Among them are notices of various important local improvement bills, and of other measures calculated to have a bearing upon the sanitary condition of large towns and populous districts. Two bills respecting the Thames Embankment—"Chelsea," and "North and South"—are to be proceeded with by the Metropolitan Board of Works, to carry out further sections of that great work. The borough of Portsmouth will seek bills to enable the local authorities to extend the supply of water, and to effect general town improvements, as well as to construct quays, &c. Bradford, Dublin, Brompton, Chatham, Gillingham and Rochester, Chichester, Chippenham Cork, Dartford, Derby, Dewsbury, Dundee, Halifax, Haverfordwest, Leamington Priors, Leicester, Lewes, Reading, the Staffordshire Potteries, &c., are also seeking to obtain bills during the session of 1868, for various local improvements, the amelioration of their water supply, &c. A General Sewage Utilization Company (Limited), Bill, and a Towns Drainage and Sewage Utilization Company Bill, are included in the same official list—as well as one for carrying out a "Westminster Boulevard," proposed to extend from New Palace-yard to Eaton-square. Recreation grounds and public gardens are likewise in contemplation at Lincoln (Canwick and Monk's Leys Common), and Leamington Priors; and, among other proposed metropolitan schemes, notices have been given of bills for a "Park-lane Improvement," "Metropolis Subways," a "Metropolitan Foreign Cattle Market," "Metropolitan Tramways," and "Metropolitan Stone Tramways." Thus, in the matter of private bill legislation, Parliament will have a fair average share of work for the session of 1868, not only in the number of the applications for acts, but also in the importance of many of the schemes which will then be brought before it.

The public acts relative to sanitary measures during the past session were not numerous, but they were important in character. Among them may be mentioned the Vaccination Act, the Sewage Act (30 and 31 Vict., cap. 113), the Labouring Classes Dwellings Acts Amendment Act, and the statute which authorises further advances under and for the purpose of the Public Works (Manufacturing Districts) Acts, 1863 and 1864. Also an act to consolidate and amend the laws as to the public health in Scotland, two inclosure, and two land drainage acts; and acts to confirm important and very comprehensive provisional orders as to various local improvements, and towns as well as police regulations in Edinburgh, and in some of the leading populous districts of Scotland, such as Dundee, Aberdeen, &c. Legislative measures have also been taken in respect of the anxious and pressing question of contagious and infectious diseases among cattle and other animals. All these contain well-considered

Digitized by Google

and desirable provisions. Remembering, indeed, the vast proportion of the session allotted to the engrossing question of reform, it must be admitted that a very fair share of other work was effected before Parliament rose, in August last, for its well earned "recess."

Towns' drainage and sewage utilization are questions increasing in urgency. The act (cap. 173) of last session proposes to deal with:—The removal of sewage and the disposal thereof; the drainage of houses and lands, and the supplying of water for irrigation, flushing sewers, and other like purposes; as well as with making, clearing, and improving drains, sewers, and watercourses, and the diversion of sewage from streams and places where it may be injurious to health. It also purposes to promote the cultivation and improvement of waste and other lands by irrigation, by means of sewage or water; and, moreover, the constructing, erecting, or improving any buildings, engine houses, mills, kilns, roads, tramways, shafts, wells, tanks, reservoirs, drains, pipes, conduits, watercourses, bridges, weirs, sluices, floodgates, and other works which shall be thought requisite for carrying out the objects of the company, or which is sanctioned by the Sewage Utilization Act, 1865, and the Sanitary Act, 1866, or either of them, or which may be approved by any authorities acting under the same respectively. If any moderate proportion of the ob-objects thus proposed can be achieved, the public benefit would be great, and a difficult question of sanitary improvement would be considerably advanced.

Meanwhile the Rivers Commission continue their very useful and instructive investigations, and, in their recent report (signed by Messrs. Robert Rawlinson, C.B. and C.E., John Thornhill Harrison, and J. Thomas Way), lay down the results of their long and laborious inquiries and experience. They maintain that, where manufactures have been established, and a large resident population has grown up, the greatest amount of pollution of river waters takes place, the area of country over which such form of nuisance is spread having no defined boundary other than the dividing ridges of the watershed and the shores of the sea. In order to prevent this, the management of rivers, their basins or watersheds, should "be placed under supervision, irrespective of any arbitrary or artificially established division. Running waters flow from their source to the sea; and, if the upland waters are polluted by town sewage and by refuse discharged from manufactures, the entire length of a river is necessarily polluted, and will require to be conserved or protected. Towns situate midway, or on the lower branches of rivers, as Leeds, Manchester, Salford, and many other places, will establish and carry out local improvements, and would clarify their sewage and other refuse fluid to little practical purpose, if the towns, villages, and manufactories on the same river, and its tributaries, are not placed under restrictions against sending down pollutions." This state of things applies equally to villages, and even to single mills and factories, as to large towns; it prevents local authorities, as also manufacturers, from taking up the question of separate purification.

Another of the principles laid down by the commissioners is, that pollution of river and stream waters, occasioned by the admission of the sewage of towns, &c., and by the trades and manufactures carried

Digitized by Google

on in those places, should be prevented *at the cost of the communities and persons causing such pollutions.* At Croydon, at South Norwood, and at some other towns, as is well known, it has been forbidden by injunction for the local authorities to pass town sewage into running waters below a defined standard of purity. "The result has been a clarification of such sewage by irrigation, which not only proves successful for the purpose desired, but, in its operation, is a source of *profit* to the ratepayers. The question of profit or loss in abating nuisances, and in preventing either the undue pollution of the atmosphere, running waters, or the seashore, by town and house sewage, or by working mines and carrying on trades and manufactures, ought not, however, too closely to be taken into account. In some cases, restrictive measures, rigidly enforced, would result in profit; whilst in others there might be a small loss, if that can be fairly called loss which is more than compensated by gain to the community. Towns can as well afford to pay for the means and appliances necessary to render sewage innocuous to running waters, as they can to pay for the sewers and drains which are necessary to their sanitary well doing." It need not be doubted that these principles will constantly become more and more confirmed in the public mind, nor that a great and beneficial progress will result in the sanitary condition of those parts of the country where they may be carried into practice.

QUARTER-SESSIONS (1868)

IN THE SEVERAL COUNTIES OF ENGLAND AND WALES.

By the Act 1 Will. IV. c. 70, it is enacted that "in the year 1831, and afterwards the justices of the peace in every county, riding, or division, for which Quarter-Sessions of the Peace by law ought to be held, shall hold their general Quarter-Sessions of the Peace in the first whole week after the 11th of October, in the first week after the 28th of December, in the first week after the 31st of March, and in the first week after the 24th of June." The following list has been computed according to this rule.

The Act 4 and 5 Will. IV. cap. 47, allows a discretionary power to the Justices of Peace as to the time of holding the Spring Quarter-Sessions, and empowers them to alter the day for holding the Sessions, so as not to be earlier than the 7th of March, nor later than the 22d of April.

BEDFORD—Tu. Dec. 31, 1867, April 7, 1868, June 30, Oct. 20.

BERKS—M. *Reading*, Dec. 30, 1867, April 6. *Abingdon*, June 29, Oct. 19.

BUCKS—*Aylesbury*, same as *Berks*.

CAMBRIDGE—*Cambridge* County, F. Jan. 3, April 10 (this is Good Friday), July 3, Oct. 23.

CHESHIRE — M. *Chester*, same as *Berks*.

FORMS OF PROCEEDINGS under the new Act 24 & 25 Vict. c. 125, for providing Parochial Offices and Depositories, drawn by DANBY P. FRY, Esq., Barrister-at-Law, and of the Poor Law Board, viz.—

1. Form of Notice for convening Vestry Meetings, under section 1 (Parochial Offices).
2. Form of Application to the Poor Law Board, with Form of Resolution to be adopted by the Vestry, under sect. 1 (double form).
3. Form of Notice for convening Vestry Meeting, under section 2 (Parochial Depositories).

THE UNION CONTRIBUTION BOOK,

Prepared by Mr. FREDERICK PURDY, Principal of the Statistical Department of the Poor Law Board.

The object of this work is to facilitate the labour of the Clerks to the Guardians in computing the amount of the Half-yearly Calls upon the Parishes, especially with reference to the apportionment of the "Common Charges," in accordance with the Irremovable Poor Act of 1861. The book contains a few instructions, with an example of the manner of using the Forms.

Price 5s. cloth,

THE POOR REMOVAL AND UNION CHARGEABILITY ACTS:

WITH INTRODUCTORY ESSAYS AND COMMENTARIES.

SECOND EDITION.

BY W. G. LUMLEY, ESQ., LL.M.

Of the Middle Temple, Barrister-at-Law, and Assistant Secretary of the Poor Law Board.

With an APPENDIX containing the Acts relating to the

REMOVAL OF SCOTCH AND IRISH POOR, AND THE METROPOLITAN HOUSELESS POOR ACTS.

Price 6s. cloth,

THE NUISANCES REMOVAL AND DISEASES PREVENTION ACTS OF 1855,

(18 & 19 VICT. co. 116 & 121).

Third Edition. Containing the Act 23 & 24 Vict. c. 77.

With INTRODUCTION, NOTES, INDEX, and APPENDIX,

BY W. G. LUMLEY, ESQ.,

Barrister-at-Law, Assistant Secretary of the Poor Law Board.

Reviews of the Second Edition.

From the LANCET, *December* 29, 1860.

"Mr. Lumley is entitled to be regarded as an authority upon questions relating to the position which the medical practitioner holds with respect to the public. This work is one which will be found exceedingly useful, not only to medical officers of health, but to every practitioner of medicine throughout the kingdom. We therefore recommend it, as containing a great amount of information of the most valuable kind on all those subjects which appertain to the removal of nuisances and the prevention of disease."

From the LAW TIMES, *December* 22, 1860.

"The Amendment Act of last session has made a new edition of any book on this subject necessary to the practitioner. Mr. Lumley's office has compelled him very carefully to construe the Acts, and to watch closely their working, and, therefore, a more competent edition of them could not be found. All the decided cases are noted up, and the contents are elaborately indexed."

FOURTH EDITION.

THE LAW RELATING TO PUBLIC HEALTH AND LOCAL GOVERNMENT:

Including the Law relating to the Removal of Nuisances injurious to Health, the Prevention of Diseases, and Sewer Authorities,

WITH THE STATUTES AND CASES.

BY W. CUNNINGHAM GLEN, ESQ.,

BARRISTER-AT-LAW.

Since the Third Edition was published, several important statutes have been passed amending the Public Health and Local Government Acts. The Sewage Utilization Act, 1865, and the Sanitary Act, 1866, may be instanced. Besides these Acts various others have been passed, bearing either directly or indirectly on the functions of Local Boards of Health and other sanitary authorities. The whole of them have been incorporated in this Edition, which contains not only the additions made by the Legislature to the Sanitary Laws, but the numerous decisions which have been pronounced by the Courts of Law upon the construction of the Public Health and Local Government Acts. The decisions which bear upon the pollution of rivers by the sewage of towns being discharged into them, are of peculiar importance, as the subject of the preservation of rivers from pollution must now demand the serious attention of the Local Authorities. The whole of the decisions will be found incorporated in the text of the chapters to the subject to which they severally relate.

Several entirely new chapters have been added, and some of those contained in the former Editions have been re-written or subdivided into sections, so as to keep each particular subject separate, and make the work more easy of reference.

One of the new chapters relates to the powers of sewer authorities under the Sewage Utilization Act, 1865, and the Sanitary Act, 1866, which give improved facilities for the sewerage of suburban districts.

The law relating to the establishment of public baths and wash-houses, common lodging-houses, dwelling-houses for the labouring classes, and public libraries, has been fully set forth in the chapters relating to those matters;—so also with regard to the drainage of towns into the river Thames, and the preservation for the use of the public of commons or open spaces in the neighbourhood of the metropolis.

The law relating to the removal of nuisances injurious to health, and the prevention of diseases has been entirely revised, the new provisions of the Sanitary Act, 1866, which give greater facilities for the removal of nuisances by the action of the local authorities, have been incorporated with that part of the work.

The work contains the whole of the law of "Local Self-Government" in relation to the conservation of the Public Health, and to all those numerous matters upon which life, health, and property depend.

THE COMPLETE RATE AND TAX CALCULATOR,

OR THE

Rate & Tax Maker's and Rate & Tax Payer's Companion;

Being a Ready Reckoner for calculating the Income and other Taxes, Poor Rates, Church Rates, Highway Rates, Water Rates, etc., containing upwards of Seventeen Thousand Calculations, and shewing the value of any Sum from 2*d.* to £1000, at One Farthing to Two Shillings and Sixpence in the Pound sterling, arranged so as to render each sum a collectable amount, and to meet the requirements of the Rating of Tenements Act, 13 & 14 Vict. c. 99.

By JAMES VALENTINE WARD,

RELIEVING OFFICER AND ACCOUNTANT:

Revised and recommended by GEORGE BARNES, ESQ., Auditor of the Berkshire and Hampshire Audit District.

Approved and recommended by the following District Auditors:—

W. H. ADAMS, Esq	NER GARDINER, Esq.	WM. REES, Esq.
G. M. ARNOLD, Esq.	J. HUNT (the late), Esq.	T. K. ROBERTS, Esq.
HENRY COLLIN, Esq.	J. C. MEYMOTT, Esq.	JNO. SEAGRAM, Esq.
UVEDALE CORBETT, Esq.	E. MURRELL, Esq.	T. S. SIMKISS, Esq.
F. W. ELLIS, Esq.	W. J. PATTERSON, Esq.	G. S. WHITE, Esq.
C. GROSS, JUN., Esq.		

Price Sixpence, sent free by post on receipt of seven stamps,

HILL'S SHEET READY RECKONER;

ADAPTED FOR THE USE OF POOR LAW OFFICERS AND GENERAL TRADERS AND DEALERS.

In the performance of his duty during five years as Relieving Officer to the Parish of St. Luke, Chelsea, the compiler of the SHEET READY RECKONER found the absolute want of such an assistance—that of a perfectly accurate system of calculation, adapted to the business of Parochial Relief, to which he could turn in an instant without difficulty.

With this Table, Clerks to Guardians and Relieving Officers can find out any given sum required, from One Farthing to Five Shillings, at a single glance. What is useful for this especial purpose is equally available for the use of Traders and Dealers. There is no Ready Reckoner existing so compact and so cheap.

Price One Shilling each,

LOCAL OFFICERS' GUIDES:

THE CHURCHWARDEN'S GUIDE.
THE HIGHWAY SURVEYOR'S GUIDE.
THE OVERSEER'S GUIDE.
THE CONSTABLE'S GUIDE.

"Cheap and useful Hand-books for the Parish Officers for whose use they are designed."—*Mark Lane Express.*

"THE CONSTABLE'S GUIDE.—This little Book contains a careful and popular *resumé* of the powers and duties of a Constable, classified according to their nature—as to whether he acts of his own authority, or under the orders of others; intermingled with brief exposition and advice; authority being quoted for the principal positions."—*Spectator.*

"THE OVERSEER'S GUIDE.—A complete, concise, and explicit enumeration of the duties and trusts of a Parish Overseer, and the penalties for neglect of them, with plain instructions for their performance, blank forms of notices, etc., and references to Acts of Parliament and legal decisions. A *cheap and useful manual*, almost essential indeed, and valuable as an authority."—*Spectator.*

"THE CHURCHWARDEN'S GUIDE.—The Churchwarden will find this little volume an invaluable, and we believe, a trustworthy guide, to the fulfilment of his difficult office."—*Law Times.*

MANUALS
OF THE
DUTIES OF POOR LAW OFFICERS,
BY
WILLIAM GOLDEN LUMLEY, ESQ.
OF THE MIDDLE TEMPLE, BARRISTER-AT-LAW,
ASSISTANT SECRETARY OF THE POOR LAW BOARD.

The undermentioned are now ready, viz.—

	s.	d.
MANUAL FOR THE MASTER AND MATRON OF THE WORKHOUSE,	3	6
" RELIEVING OFFICER	2	6
" TREASURER	1	6
" MEDICAL OFFICER	3	6

N.B.—The regulations which relate to Poor Law Officers are found in separate Orders of the Poor Law Commissioners, and in many distinct communications, and are for the most part intermingled with others relating to different Officers and subjects of an entirely separate character. It has appeared to be convenient to detach for the use of each Officer all that relates to him, both as regards his appointment and his duties, so that he may readily find, in his own Manual, what it concerns him to know, without having to seek for it in the larger collection.

On the 1st and 15th of each Month is published,

KNIGHT'S OFFICIAL ADVERTISER

OF

LOCAL MANAGEMENT IN ENGLAND & WALES:

CIRCULATED GRATUITOUSLY BY POST TO

ALL CLERKS OF POOR LAW UNIONS,

BOARDS OF HEALTH, AND OTHER LOCAL BOARDS,

IN ADDITION TO A LARGE AND RAPIDLY INCREASING SALE.

The Objects of this Journal are—

1. To provide a Medium of Communication for Local Authorities desiring to advertise for OFFICERS in the various Departments of Service, as well as for Unions and Parishes to announce the Descriptions of MEN HAVING DESERTED THEIR FAMILIES. On the other hand, it is a most advantageous channel of announcement for CONTRACTORS desirous of obtaining PUBLIC WORKS; for the various Articles of SUPPLY that are requisite FOR WORKHOUSES and OTHER INSTITUTIONS; for ECONOMICAL INVENTIONS that address themselves to the uses of such Establishments; for BOOKS connected with Local Administration or adapted for Schools; and for WORKHOUSE MASTERS, SCHOOLMASTERS, RELIEVING OFFICERS, COLLECTORS OF RATES, and others seeking Employment.

2. To furnish INFORMATION OF A PRACTICAL CHARACTER upon every essential question that belongs to our Local Management System, Metropolitan and Provincial; and to supply a Current Register of Official Appointments and Elections.

ADVERTISEMENTS addressed to KNIGHT & COMPANY, 90, Fleet Street, Publishers by Authority to the Poor Law Board and to the Home Office for the Purposes of the Local Government Act, 1858, will be charged in the Quarterly Accounts of the several Unions and Local Boards. Other Advertisements must be prepaid.

*** Advertisements for each Number are requested three days before the day of Publication.
